

***Members Only* (2009-2010)**
(Archival Inkjet Prints)

Members Only is a series of large-scale color photographs depicting the interior spaces of select historical private clubs across North America, examined through both political and aesthetic lenses. The work reflects on the notion of exclusivity, exploring how wealth, power, and class distinction are inscribed within these environments. The images invite viewers to consider how architecture and design shape our collective imagination while also revealing the social values and hierarchies that sustain such institutions.
